

**JOYCE TAKIGUCHI, PRESIDENT
COMSTAR INTERNATIONAL INC.**

ComStar International manufactures environmentally safe, industrial strength, chemical products for the air conditioning, heating, plumbing, precision cleaning and construction industries. Joyce assumed various marketing positions in diverse industries such as finance, telecommunications and sports in New York and Japan before forming ComStar Intl. in 1990 with her husband to acquire Industrial Petrolic Corporation.

Since then, the company has grown to produce over 300 chemical products distributed internationally. Most recently, ComStar established a joint venture in Zhuji, China to manufacture and distribute chemical products to the Chinese market.

Joyce and her husband live in Connecticut with their two sons, Alexander, age 7, and John-Paul, a six year old. She has served on the board of St. Mary's Foundation for Children, is a founding member of the Women Presidents' Organization and serves on various committees at her sons' private school. Joyce received her BS from Arizona State University, performed post-graduate work at Sophia University in Tokyo, Japan, and received her MBA with honors from Fordham University.
